rimjhimsrivastava971@gmail.com · [+91-8736826766](tel:+91-8736826766) · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

Summary

IT graduate passionate about software development, full-stack and AI-driven web development. Experienced in building production-ready, data-driven applications using the MERN stack and machine learning — including an IEEE-published project and applied AI experience through an IBM-affiliated program

Technical Skills

- **Frontend:** React.js, HTML, JavaScript, CSS
- **Backend:** Node.js, Express.js, Spring Boot
- **Databases:** MongoDB, SQL
- **AI / ML:** Machine Learning, NLP, Recommendation Systems
- **Languages:** Python, C++, Java
- **Tools & Platforms:** Git, GitHub, VS Code, Vercel, Render

Projects

AI-Powered Smart Cloud Kitchen | Project Lead

MERN · FastAPI · BERT · ML

[Live Demo](#)

- Built a production-deployed full-stack cloud kitchen platform with AI-driven food ordering and personalised recipe discovery.
- Engineered a hybrid recommendation engine using TF-IDF, BERT embeddings, and collaborative filtering; achieved **94% Hit Rate@10**.
- IEEE-published and awarded **1st place** at Technovanza 2026 (CS/AIML Department, UGI Project Exhibition).

AI-Powered Hybrid Tutor Finder Platform | Frontend Developer

MERN · Gemini AI

[GitHub](#) | [Live Demo](#)

- Built role-based dashboards and the gamified learning UI (badges, streaks, leaderboards) for students, teachers, and parents.
- Integrated Gemini AI chatbot and a 250+ question quiz interface with ML-driven performance classification.
- Developed at UHACK 4.0, a hackathon backed by IEEE, Google Developer Groups, and the Institution's Innovation Council.

CityScape — Marketplace for Local Goods | Full-Stack Developer

Spring Boot · React · Tailwind CSS

[GitHub](#) | [Live Demo](#)

- Independently developed a full-stack marketplace platform with a Spring Boot REST backend and React frontend for discovering local goods.
- Implemented secure session-based authentication, role-based access control, and a fully responsive UI with Tailwind CSS.

Internships

Full-Stack Development Virtual Internship

Jul 2025 – Aug 2025

Skillbit Technologies

- Built full-stack applications using React, Node.js, and Express through hands-on training.
- Worked on RESTful API development and MongoDB integration via guided projects.

IBM PBEL Virtual Internship — Artificial Intelligence

2025

IBM

- Selected for a stipend-based virtual internship focused on applied Artificial Intelligence.
- Developed an AI-powered chatbot using IBM Watson Assistant for personalised book recommendations.

Certifications

- **Machine Learning** — IIIT Allahabad
- **Introduction to Modern AI** — Cisco Networking Academy
- **Python Programming** — GUVI (HCL)
- **Tata Group GenAI** and **Deloitte Data Analytics** virtual experience programmes (2025)

Achievements

- **1st Place** — Technovanza 2026, CS/AIML Department (UGI Project Exhibition) for AI-Powered Smart Cloud Kitchen.
- Attended **Tata Consultancy Services (TCS)** Industry Visit (Sep 2024) as one of a handful of students selected from the batch.

Education

B.Tech in Information Technology

2022 – 2026

United College of Engineering and Research, Prayagraj

CGPA: 8.03

Publication

AI-Powered Smart Cloud Kitchen with Personalised Recipe Recommendation System

2025

IEEE Int'l Conference on Recent Trends in Computing and Smart Mobility, MANIT Bhopal

- Published in **IEEE Xplore** Digital Library.
- Proposed an AI-powered cloud kitchen system integrating personalised recipe recommendations via NLP and machine learning.
