Summary

Full-stack developer specializing in intelligent web applications, with proven experience across MERN, FastAPI, and recommendation systems. Proven track record of delivering production-ready, data-driven products—combining strong backend fundamentals, frontend polish, and applied machine learning to solve real-world problems.

Education

B.Tech in Information Technology 2022–2026
United College of Engineering and Research, Prayagraj CGPA: 7.91

Technical Skills

- **Frontend:** React.js, HTML5, JavaScript, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, FastAPI, Spring Boot
- **Databases:** MongoDB, SQL
- **AI/ML:** Machine Learning, NLP, Recommendation Systems, IBM Watson
- **Languages:** Python, C++, Java
- **Tools:** Git, GitHub, VS Code, Vercel, Render

Industry Program

IBM PBEL Virtual Internship – Artificial Intelligence 2025
IBM

- Selected for a stipend-based virtual internship focused on applied Artificial Intelligence
- Developed an AI-powered chatbot using IBM Watson Assistant for personalized recommendations

Projects

AI-Powered Smart Cloud Kitchen *MERN, FastAPI, BERT, ML*
Live: cloud-kitchen-frontend-eulf.onrender.com

- Built a production-deployed full-stack cloud kitchen platform with AI-driven food ordering and personalized recipe discovery
- Engineered a hybrid recommendation engine using TF-IDF, BERT embeddings, and collaborative filtering; achieved 94% Hit Rate@10
- IEEE-published and awarded 1st position at Technovanza 2026

Readora – AI Book Recommendation Chatbot *React.js, Node.js, Express.js, IBM Watson*
GitHub: github.com/Rimjhim117/readora_chatbot | Live: readora-chatbot.onrender.com

- Built conversational AI chatbot using NLP and ML for personalized book recommendations with multi-turn dialogue support
- Integrated IBM Watson Assistant APIs for intent recognition and context-aware conversational flows
- Developed as capstone project for IBM PBEL Virtual Internship

CityScope – Marketplace for Local Goods *Spring Boot, React, TailwindCSS*
GitHub: github.com/Rimjhim117/CityScope | Live: cityscope-frontend.onrender.com

- Developed a full-stack marketplace platform with Spring Boot REST backend and React frontend for exploring cities and discovering local goods
- Implemented secure session-based authentication, role-based access control, and responsive UI with TailwindCSS

Certifications & Achievements

- **Machine Learning** – IIIT Allahabad
- **Introduction to Modern AI** – Cisco Networking Academy
- **Python Programming** – GUVI (HCL)
- Secured **1st Position in CS/AIML Department** at *Technovanza 2026 (UGI Project Exhibition)* for “AI-Powered Smart Cloud Kitchen”
- Visited **Tata Consultancy Services (TCS)** as part of an **Industry Visit** (Sep 2024), selected among a handful of students from the batch
- Solved **230+ problems on GeeksforGeeks** and **126 on LeetCode**
- Completed **Tata Group GenAI** and **Deloitte Data Analytics** virtual programs (2025)

Publication

AI-Powered Smart Cloud Kitchen with Personalized Recipe Recommendation System
2025 IEEE 1st International Conference on Recent Trends in Computing and Smart Mobility , MANIT Bhopal

- Published in IEEE Xplore Digital Library
- Proposed and developed an AI-powered cloud kitchen system integrating personalized recipe recommendations using NLP and machine learning

Leadership

Project Lead — AI-Powered Smart Cloud Kitchen 2025–2026
Led a team of 2 across full-stack development, ML integration, and deployment; project was IEEE-published and secured 1st position at Technovanza 2026.
