Objective

Full Stack Developer and AI/ML enthusiast skilled in MERN, FastAPI, and NLP-based recommendation systems. IEEE-published researcher with hands-on experience building end-to-end intelligent web applications—combining strong backend fundamentals, frontend polish, and data-driven thinking to solve real-world problems.

Education

United College of Engineering and Research
Bachelor of Technology – Information Technology

2022–2026
CGPA: 7.91

Technical Skills

- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, FastAPI, Spring Boot
- **Databases:** MongoDB, SQL
- **AI/ML:** Machine Learning, NLP, Recommendation Systems, IBM Watson
- **Languages:** Python, C++, Java
- **Tools:** Git, GitHub, VS Code, Streamlit, Vercel

Industry Program

IBM PBEL Virtual Internship – Artificial Intelligence
IBM

2025

- Selected for a stipend-based virtual internship focused on applied Artificial Intelligence.
- Developed an AI-powered chatbot using NLP and IBM Watson Assistant for personalized recommendations.

Projects

AI-Powered Smart Cloud Kitchen

MERN, FastAPI, ML

Live Demo: cloud-kitchen-frontend-eulf.onrender.com

- Built a full-stack AI-powered cloud kitchen platform integrating personalized recipe recommendations and food ordering
- Designed hybrid recommendation engine using TF-IDF, BERT embeddings, and collaborative filtering

Personal Blog Platform

MERN

GitHub: github.com/Rimjhim117/blog_platform

- Developed full-stack blogging platform with JWT-based authentication and CRUD operations
- Implemented responsive design and optimized database queries for improved performance

Readora – AI Book Recommendation Chatbot

React.js, Node.js, Express.js, IBM Watson Assistant

GitHub: github.com/Rimjhim117/readora_chatbot

- Engineered a full-stack book recommendation chatbot using React and Express, capturing IBM Watson Web Chat client event triggers to drive dynamic real-time catalog filtering.
- Built a custom quote-safe CSV parser for robust catalog queries and created a visually premium front-end dashboard using advanced CSS 3D book hover animations.

Certifications & Achievements

- **Machine Learning** - IIIT Allahabad
- **Introduction to Modern AI** - Cisco Networking Academy
- **Python Programming** - GUVI (HCL)
- Secured **1st Position in CS/AIML Department** at *Technovanza 2026 (UGI Project Exhibition)* for “AI-Powered Smart Cloud Kitchen with Personalized Recipe Recommendation System”
- Visited **Tata Consultancy Services (TCS)** as part of an **Industry Visit** (Sep 2024), selected among a handful of students from the batch
- Solved **230+ problems on GeeksforGeeks** (Institute Rank 58) and **126 on LeetCode**
- Completed **Tata Group GenAI** and **Deloitte Data Analytics** virtual programs

Publication

AI-Powered Smart Cloud Kitchen with Personalized Recipe Recommendation System

2025 IEEE 1st International Conference on Recent Trends in Computing and Smart Mobility (RCSM 2025), MANIT Bhopal

- Published research paper in IEEE Xplore Digital Library
- Proposed and developed an AI-powered cloud kitchen system integrating personalized recipe recommendations using NLP and machine learning

Leadership

Project Lead — AI-Powered Smart Cloud Kitchen

2025–2026

Led a team of 2 across full-stack development, ML integration, and deployment; project was IEEE-published and secured 1st position at Technovanza 2026.
