Professional Summary

Full-stack developer and AI/ML enthusiast with hands-on experience building end-to-end intelligent web applications using MERN, FastAPI, and NLP-based recommendation systems. IEEE-published researcher with a track record of delivering impactful, production-ready products—combining strong backend fundamentals, frontend polish, and data-driven thinking to solve real-world problems.

Education

Undergraduate Education

Bachelor of Technology in Information Technology

2022 – 2026

United College of Engineering and Research, Prayagraj, Uttar Pradesh

Cumulative Grade Point Average: 7.91/10.0

Secondary Education

St. Anthony's Convent Girls' Inter College, Prayagraj

12th Standard | 2021 | UP Board

10th Standard | 2019 | UP Board

Research Publication

AI-Powered Smart Cloud Kitchen with Personalized Recipe Recommendation System

2025 IEEE 1st International Conference on Recent Trends in Computing and Smart Mobility (RCSM 2025), MANIT Bhopal 2025

- Published in IEEE Xplore Digital Library
- Proposed and developed an AI-powered cloud kitchen system integrating personalized recipe recommendations using NLP and machine learning

Virtual Internships & Programs

IBM PBEL Virtual Internship – Artificial Intelligence

2025

IBM

- Selected for stipend-based virtual internship focused on applied Artificial Intelligence
- Developed AI-powered chatbot using NLP and IBM Watson Assistant for personalized recommendations
- Applied machine learning concepts to real-world business scenarios through structured curriculum

Full-Stack Development Virtual Internship

July 2025 – August 2025

Skillbit Technologies

- Completed hands-on training building full-stack applications using React, Node.js, and Express
- Learned RESTful API development and database integration with MongoDB through guided projects
- Gained exposure to agile development workflows and industry best practices

Deloitte Data Analytics & Technology Job Simulation

2025

Deloitte

- Completed virtual program focusing on data analytics methodologies and technology consulting practices

Tata Group GenAI Data Analytics Job Simulation

2025

Tata Group

- Participated in program exploring Generative AI foundations, prompt engineering, and enterprise AI applications

Technical Projects

AI-Powered Smart Cloud Kitchen

MERN, FastAPI, ML, BERT

Live Demo: cloud-kitchen-frontend-eulf.onrender.com

- Built a production-deployed full-stack cloud kitchen platform with AI-driven food ordering and personalized recipe discovery
- Engineered a hybrid recommendation engine combining TF-IDF, BERT embeddings, and collaborative filtering
- IEEE-published and awarded 1st position at Technovanza 2026 (UGI Project Exhibition)

Personal Blog Platform

React, Node.js, MongoDB, Express

GitHub: github.com/Rimjhim117/blog_platform

- Developed full-stack blogging platform with JWT-based authentication and CRUD operations
- Optimized MongoDB queries and implemented responsive UI for improved cross-device usability

AI-Powered Hybrid Tutor Finder Platform *React, Node.js, Express.js, MongoDB, brain.js, JWT* *UHACK 4.0 — Team: DeepThink Labs* *March 2026*

GitHub: github.com/AniketMishra8/Tutor-Finder | Live: deepthinktut.netlify.app

- Built a full-stack AI-powered tutor-student matching platform with role-based dashboards for students, teachers, and parents
- Trained 3 real neural network models using brain.js for tutor compatibility scoring, student performance prediction, and personalized recommendations
- Implemented a 250+ question practice quiz system with timed focus mode, tab-switch detection, and ML-driven performance classification
- Integrated Google Gemini-powered AI chatbot and gamified learning features including badges, streaks, and leaderboards

Readora – AI Book Recommendation Chatbot

Python, NLP, IBM Watson

GitHub: github.com/Rimjhim117/readora_chatbot

- Built conversational AI chatbot using NLP and ML for personalized book recommendations with multi-turn dialogue support
- Integrated IBM Watson Assistant APIs for intent recognition and context-aware conversational flows
- Developed as capstone project for IBM PBEL Virtual Internship

CityScape – Marketplace for Local Goods

Spring Boot, React, TailwindCSS

GitHub: github.com/Rimjhim117/CityScape

- Developed platform enabling users to explore cities and discover local goods
- Implemented secure session-based login and responsive UI using Spring Boot backend with React frontend

Bank Management System

Java, Swing, File I/O

GitHub: github.com/Rimjhim117/BankManagementSystem

- Developed desktop application simulating banking operations including login, deposit, withdrawal, transfer, and loan requests
- Built GUI using Java Swing with admin controls

Portfolio Website

React, Node.js, Express, TailwindCSS

Live: rimjhim-portfolio-mauve.vercel.app

- Built responsive personal portfolio with backend support, project showcase, and contact form
- Deployed on Vercel with modern, animated design

Leadership

Project Lead — AI-Powered Smart Cloud Kitchen

2025–2026

Led a team of 2 across full-stack development, ML integration, and deployment; project was IEEE-

published and secured 1st position at Technovanza 2026.

Technical Skills

Programming Languages

Python, C++, Java

Web Development

Frontend: React.js, HTML5, CSS3, TailwindCSS, Responsive Design

Backend: Node.js, Express.js, Spring Boot, FastAPI, RESTful APIs

Databases

MongoDB, MySQL

AI / ML

Machine Learning, NLP, Recommendation Systems, TF-IDF, BERT Embeddings, Collaborative Filtering, IBM Watson Assistant

Tools & Platforms

Git/GitHub, VS Code, Streamlit, Vercel, Render, IBM Cloud

Certifications

- | | |
|--|------|
| 1. Machine Learning — Indian Institute of Information Technology, Allahabad | 2024 |
| 2. Core Java — United College of Engineering and Research, Prayagraj | 2023 |
| 3. Web Development — Internshala | 2024 |
| 4. Microsoft Excel — Coursera | 2024 |
| 5. Python Programming — GUVI (in association with HCL Technologies) | 2025 |
| 6. Spring Boot — LearnTube.ai | 2025 |
| 7. Introduction to Modern AI — Cisco Networking Academy | 2025 |
| 8. Naukri NCAT Certificate — Naukri Campus | 2025 |

Achievements

- Secured **1st Position in CS/AI/ML Department** at *Technovanza 2026 (UGI Project Exhibition)* for “AI-Powered Smart Cloud Kitchen with Personalized Recipe Recommendation System”
- Published research paper in **IEEE Xplore Digital Library** at RSCM 2025, MANIT Bhopal
- Visited **Tata Consultancy Services (TCS)** as part of an Industry Visit (Sep 2024), selected among a handful of students from the batch
- Solved **230+ problems on GeeksforGeeks** (Institute Rank 58) and **126 on LeetCode** (17 Hard)

Competitions & Events

UHACK 4.0 *March 2026*
United Group of Institutions, Prayagraj — in association with IEEE, Google Developer Groups & Institution's Innovation Council (Ministry of HRD)

- Participated in UHACK 4.0 held on 17th & 18th March 2026
- Recognized for strong problem-solving abilities, creative thinking, and proactive approach towards innovation and teamwork

Smart India Hackathon (SIH) 2025 *2025*
Government of India Initiative

- Participated in India's largest hackathon; worked on a problem statement addressing real-world challenges
- Gained experience in collaborative problem-solving, rapid prototyping, and innovation under pressure

HackDiwas 2.0

United Group of Institutions

September 2024

- Participated in hackathon competition focused on innovative tech solutions
